

Observations and Recommendations

- Strong genetic indications for sport, particularly eventing.
- A good cross for warmbloods who require refinement and/or endurance.
- Soundness and longevity are fairly evident throughout with no glaring conformation faults.
- There are ancestors in the 4th and 5th generations that were noted for tough mindedness or poor dispositions. (War Admiral, Tourbillon, My Babu, Spy Song)
- Turn-To and My Babu have the same second dam (dam of Ambiorix), which could make for interesting linebreeding provided the dispositions are excellent.
- Djebel is by Tourbillon, as is Ambiorix.
- Turn-To is by the Nearco son, Royal Charger who often appears in sport ancestry and frequently in that of dressage horses.
- Roman is by Sir Gallahad III who is a full brother to Bull Lea's sire, Bull Dog.
- Mares with Secretariat, Princequillo, Green Dancer, Owen Tudor, Alleged, Wild Risk, Hyperion, Bois Roussel, Niccolla Dell' Arca, Admiral Drake, Court Martial and Hurry On will likely cross well with this stallion, assuming that the balance of their pedigree is sport oriented.
- Precipitation, Royal Charger and Nearco would be good choices for linebreeding.
- The ancestors in this pedigree are often found in combination when researching sport pedigrees. Examples of combinations in National Hunt Sires:
 - Val de Loir and Sir Gaylord are combined in the pedigree of leading National Hunt Sire (GB), Lord Americo.
 - Vieux Manoir and Ribot are found in the pedigree of Lancastrian, A leading National Hunt Sire in GB and Ireland.
 - Aristocracy, a leading National Hunt Sire, has Sir Gaylord and Nearco combined with 2 crosses each to Precipitation and Royal Charger.
 - Nearco and Sir Ivor are in the pedigree of National Hunt Sire, Shareef Dancer.
 - Ribot and Sir Gaylord are in the pedigree of National Hunt Sire, Torus.
 - Nearco, Pocahontas and Sir Ivor are in the pedigree of National Hunt Sire, Alzao.
 - Green Valley and Nearco appear in the pedigree of National Hunt Sire, Cadoudal.
